Umar Farooq

Statistician | Data Analyst | Data Scientist | Flutter Developer

Peshawar, Pakistan | umarfarooqapp.dev@gmail.com | umarfarooq29.github.io | github.com/UmarFarooq29

PROFESSIONAL PROFILE

Statistics undergraduate and portfolio builder focused on clean analysis, reliable reporting, and practical digital products. Comfortable moving from raw data to readable insight through Python, SQL, Excel, dashboards, statistical methods, and machine learning workflows. Also builds Flutter app interfaces with responsive layouts, service-layer structure, and user-focused presentation.

CORE SKILLS

Statistics	**Probability**	**Hypothesis Testing**	**Regression Analysis**
Research Methods	**Data Cleaning**	**Python**	**SQL**
Excel	**Power BI**	**Tableau**	**Dashboard Design**
Machine Learning	**EDA**	**Pandas**	**NumPy**
Model Evaluation	**Forecasting**	**Flutter**	**Dart**
Firebase	**REST APIs**	**Responsive UI**	**Git**

EDUCATION

BS Statistics - University of Peshawar
2023 - 2027 | Peshawar, Pakistan | In progress

- Focused on quantitative analysis, probability, statistical modeling, inference, and data-driven problem solving.
- Building a foundation for applied analytics, research summaries, dashboards, and evidence-based reporting.

German Language Skilled Worker Level Certificate - NAVTTC
Completed in 2025 | Government College Peshawar

- Completed German language training under the Prime Minister Youth Skills Development Program.

Diploma in Information Technology - KPK Board of Technical and Commerce Education
Completed in 2022 | Khyber Pakhtunkhwa, Pakistan

- Built practical IT, computer application, office productivity, and digital skills.

Intermediate in Science - Government Degree College Wadpagga
Completed in 2022 | Peshawar, Pakistan

- Strengthened academic base for statistics, mathematics, and analytical thinking.

Secondary School Certificate in Arts - Government Shaheed Haris Nawaz High School
Completed in 2020 | Zaryab Colony, Peshawar

- Built foundational communication, reasoning, and academic skills.

PORTFOLIO PROJECTS

Retail Sales Analytics Dashboard
Python | SQL | Excel | Power BI | Tableau

- Created a reproducible retail analytics pipeline from raw orders to cleaned data, SQLite metrics, BI-ready CSV exports, and dashboardpreview assets.
- Shows practical delivery from data cleaning to stakeholder-friendly reporting.

Customer Churn ML Forecasting
Machine Learning | EDA | Model Evaluation | Forecasting

- Built a churn scoring workflow with feature engineering, evaluation metrics, risk bands, and a six-month churn forecast output.

TaskFlow Flutter Firebase App

Flutter | Dart | Firebase | REST APIs | Responsive UI

- Created a Flutter Material 3 app foundation with task models, repository code, REST API loading, Firebase sync structure, and responsive screens.

Student Performance Research Study

Statistics | Regression | Hypothesis Testing | Probability

- Analyzed UCI student performance data with descriptive statistics, bootstrap intervals, group comparison, regression modeling, and probability reporting.

Auto MPG Regression Analysis

Regression | Inferential Statistics | Probability

- Prepared historical vehicle data, handled missing horsepower values, compared origin groups, and built an interpretable multiple regression model.

BAC Probability Experiment

Research Methods | Probability | Permutation Test

- Used bootstrap confidence intervals, a permutation test, empirical probabilities, and simple regression to explain beer-to-BAC relationships in a small experimental dataset.

CERTIFICATES AND TRAINING

Google UX Design Professional Certificate

Google via Coursera

- UX research, wireframing, prototyping, user-centered design, and product thinking.

Data Science & Machine Learning Fundamentals

Corporate Finance Institute (CFI)

- Applied data science and machine learning foundations for analyst workflows.

Google Data and Business Intelligence Coursework

Google via Coursera

- Foundations of Data Science, Process Data from Dirty to Clean, Foundations of Business Intelligence, Decisions Dashboards and Reports, Data Models and Pipelines, and Data Visualization.

Additional CFI Coursework

CFI specialization modules

- Python Fundamentals, Regression Analysis, Classification, and Data Preparation for Machine Learning in Python.

TOOLS AND WORKING STYLE

Tools: Python, SQL, Excel, Power BI, Tableau, Pandas, NumPy, Flutter, Dart, Firebase, REST APIs, Git, HTML, CSS, JavaScript, Bootstrap.

Working style: evidence first, clear communication, careful assumptions, readable dashboards, concise reports, and responsive interfaces that are easy to understand and maintain.
